- Fast Learning

## ABOUT ME

I am a frontend web developer with over a year of experience in creating responsive, user-friendly websites. I have developed various projects, including e-commerce platforms and educational dashboards, focusing on clean design and smooth user experience. My strong communication and teamwork skills help me thrive in collaborative environments, and I am always eager to learn.

## PROJECTS EXPERIENCE

### E-Commerce

- Developed a responsive e-commerce platform with a comprehensive dashboard, advanced filtering, dynamic product loading, and interactive UI components.

## WORK EXPERIENCE

I worked as a frontend developer at MMS Workshop in 2023, where I collaborated with a team to develop responsive user interfaces and optimize website performance. Currently, I am a freelance developer at Yangon Software House since 2023, working closely with teams to build and maintain web applications.
